## Frequencies for Your Life

## Company Story

Healy World was founded in 2019 because of the vision of two good friends: Marcus Schmiede and Christian Halper.

Marcus is the founder and inventor of TimeWaver, as well as a philosopher and researcher. For a long time, he nursed the idea of making TimeWaver technology available to everybody by means of a simple and practical device, which turned out to be Healy. Complimenting this partnership, Christian possesses a vast experience as an entrepreneur in the fields of finance, electrical and communication engineering, as well as sustainable technologies, which brought Healy to where we are today.

## Research & Development

Backed with more than 13 years of frequency application experience, our technology is built on the expertise of doctors, scientists, and engineers in our research and development center in Kränzlin Castle (near Berlin). Our main offices are based in Berlin and Mainz, Germany.

## Healy Advisory Board

A length of research goes into our frequency applications in collaboration with our advisory board.

## Vision

Our vision is to empower people to live a healthy, fulfilled and conscious life and to inspire our growing community to make a continuous positive impact on humanity.

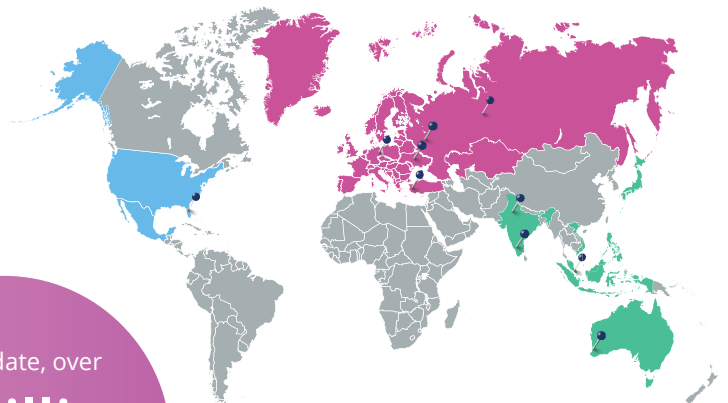

## Mission

Healy World creates revolutionary products and opportunities to empower you to thrive and live a life of freedom, passion and joy. We provide Frequencies for Your Life!

## Global Network Reach

Present in over 50 countries worldwide and is one of the fastest growing network marketing companies in the past 10 years.

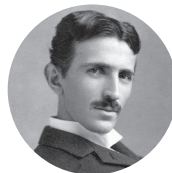

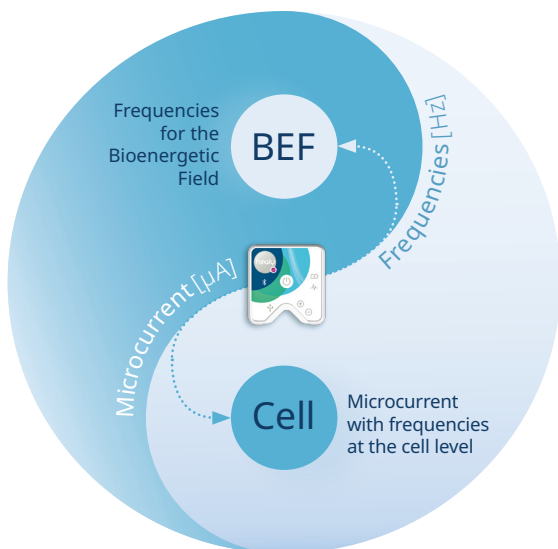

Year to date, over  
**20 million**  
applications with Healy  
technology and  
know-how.

## Did you know?

All matter is made up of atoms and produces energy.

Spaces in-between each atom allows movement and vibrations, resulting to energy. This energy has frequency that can be measured. Frequency is our natural electrical energy, and these frequencies influence the state of our wellbeing.

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration."

**Nikola Tesla**

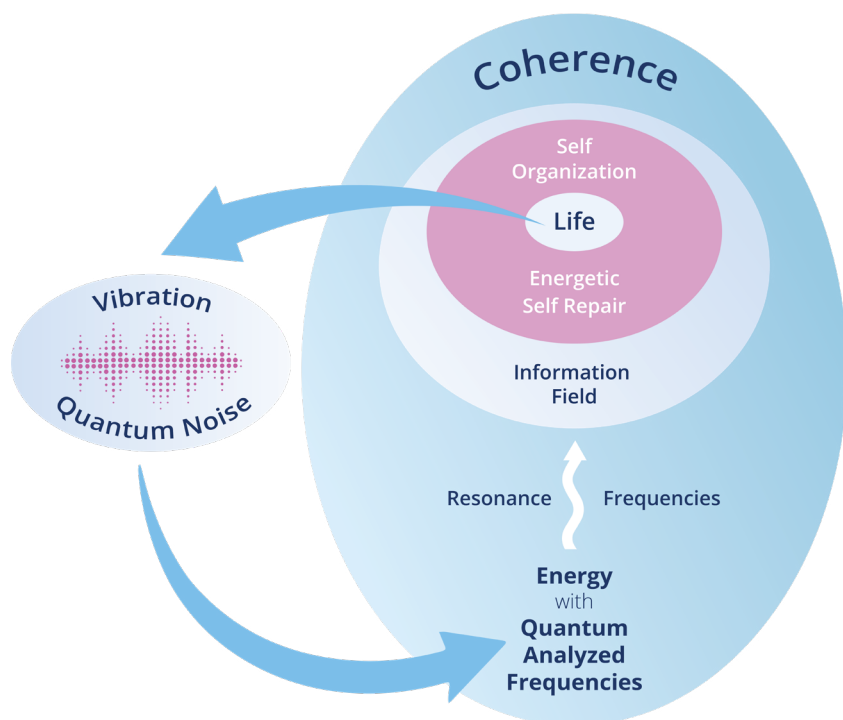

"All matter consists of energy vibrating at different frequencies, combined with quantum noise."

Therefore, electromagnetic fields vibrating at frequencies analyzed by quantum noise are the key for life, providing the body with the energy it needs to harmonize its own energetic self-organizing and self-repair.

These Quantum Analyzed Frequencies can take the Bioenergetic Field of the body to a state of higher order, manifesting itself in holistic health, wellbeing and vitality."

**Markus Schmiede**

### What Does Bioenergetic Field (BEF) Mean?

The flow of live energy connecting body, mind, and soul, traditionally known as Chi (or Qi) and Prana. In scientific terms: An information flow on the quantum level.

### What Does Individualized Microcurrent Frequencies (IMF) Mean?

Individualized Microcurrent Frequencies (IMF) are frequencies that are analyzed in real-time, modulated on microcurrent, and applied, for example, through adhesive electrodes.

### What Does Cell Membrane Potential Mean?

Every cell of the body has its own membrane potential. Resting membrane potential is the difference between the electric potential in the cell's intracellular and extracellular matrices.

**Notice:** The Individualized Microcurrent Frequency (IMF) programs of the Healy are not medical applications. They are not intended to cure, treat, mitigate, diagnose or prevent disease, have not been reviewed by a notified body and are not part of a conformity assessment procedure under the MDD/MDR. # Effects of Microcurrent

according to an animal study by Ngok Cheng et al.\*

Increased amino acid transport

Increased protein synthesis

Increased ATP production

Amino acids are the building blocks for protein synthesis.

Protein synthesis is the process by which proteins are formed to build cells. It means creating physical life, following the central blueprint stored as DNA in each of our cells.

ATP (adenosine triphosphate) stores energy in the cells, similar to gasoline in a car's gas tank. ATP is produced in the cell by the mitochondria. The mitochondria are the ATP-producing "power plants" in each cell of the body.

\* Cheng, N., et al. (1982). The effects of electric currents on ATP generation, protein synthesis, and membrane transport in rat skin. *Clinical orthopaedics and related research*, 171, 264-72. This in vitro study refers to the effects of microcurrent and the basic mechanisms on which Healy frequency programs are based. It did not include any Healy devices.

## Healy Comes In Various Editions

In order to provide you only with the products that you really need, we have organized all Healy Individualized Microcurrent Frequency (IMF) programs into different program groups, covering various aspects for the harmonization of your Bioenergetic Field. Once you have purchased any of the Healy editions, you can always subscribe to more program groups as well as modules, or upgrade to one of the other editions without purchasing a new device.
