Notice:

"Individualized Microcurrent Frequencies" ("IMF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user.

The duration, frequencies, intensity, frequency, naming, and the descriptions of the Individualized Microcurrent Frequency (IMF) programs are based on the practical experience of Nuno Nina and other experts and our understanding of the interaction of frequency modulated microcurrent with the Bioenergetic Field. They have not been confirmed by independent studies.

The Healy Individualized Microcurrent Frequency (IMF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.

The Individualized Microcurrent Frequency (IMF) programs of the Healy device are not medical applications. They are not intended to cure, treat, mitigate, diagnose, or prevent any disease or medical condition. The terms used in the programs do not constitute statements concerning their effects. The purpose of the programs is to provide the user with a tool to explore application options. Healy programs should not be treated as a substitute for professional medical advice, diagnosis or treatment. You should always seek such advice from a qualified medical professional. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare practitioner, you should consult your practitioner before using Healy. Always use your Healy according to the Instructions for Use.

The background of the slide is a deep green surface decorated with festive Christmas items. In the top left, there is a gift wrapped in brown paper, tied with a piece of twine, and adorned with a sprig of evergreen and a large, textured gold ball ornament. Scattered across the green surface are several smaller gold star confetti pieces. A wide, shimmering gold ribbon winds its way across the top and right portions of the image. Several other gold ornaments are placed around: a smooth, reflective ball ornament in the center, a textured ball ornament in the bottom right, and another smooth ball ornament in the top right. Sprigs of evergreen branches are also scattered throughout the scene.
