THE INFORMATION FIELD

Effects of Microcurrent

According to an animal study by Ngok Cheng et al.*

Increased
amino acid
transport

Amino acids are the building blocks for protein synthesis.

Increased
protein
synthesis

Protein synthesis is the process by which proteins are formed to build cells. It means creating physical life, following the central blueprint stored as DNA in each of our cells.

Increased
ATP
production

ATP (adenosine triphosphate) stores energy in the cells, similar to gasoline in a car's gas tank. ATP is produced in the cell by the mitochondria. The mitochondria are the ATP-producing "power plants" in each cell of the body.

* Clinical Orthopaedics and related research No.171, November-December 1982. This animal study refers to the effects of microcurrent and the basic mechanisms on which Healy frequency programs are based. It did not include any Healy devices.

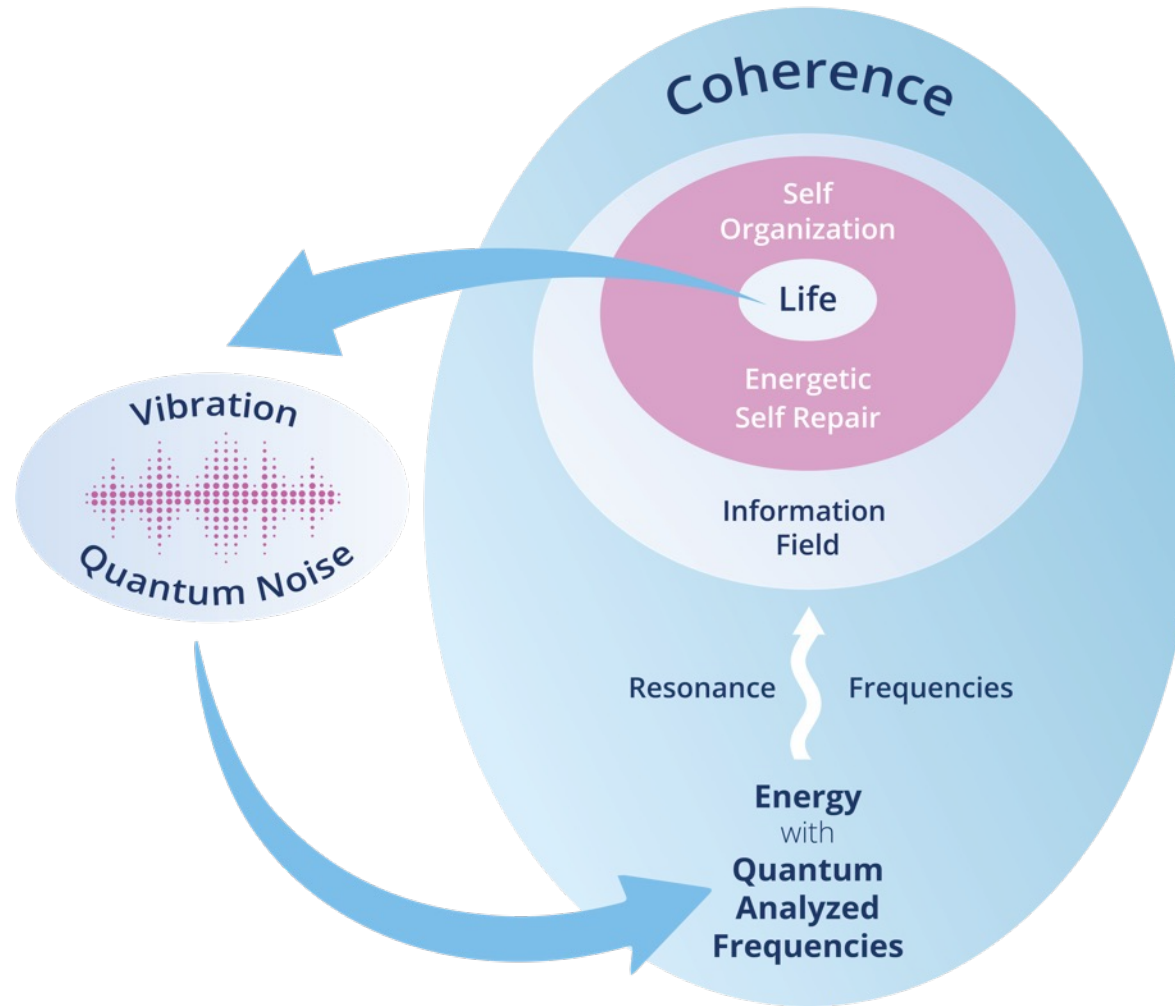

Bioenergetic Field (BEF):
The flow of life energy
connecting body, mind and
soul, traditionally known as
Chi (or Qi) and Prana.

In scientific terms:
An information flow
on the quantum level.

"If you want to find the secrets of the universe, think in terms of energy, frequency and vibration."

Nikola Tesla

"All matter consists of energy vibrating at different frequencies. Therefore, Healy technology is based on my belief that electromagnetic fields vibrating at Quantum Analyzed Frequencies can provide the body with the information and energy it needs to harmonize its own energetic self-organization and self-repair. These specific frequencies can take the Bioenergetic Field of the body to a state of higher order, manifesting itself in holistic health, wellbeing and vitality."

MagHealy

Where the Power of the Magnetic Field
and Holistic Wellbeing Meet

Notice:

The MagHealy programs are designed to support your wellbeing through the harmonization of the Bioenergetic Field. We conducted before/after wellbeing surveys in the context of a controlled random group of MagHealy/Healy users, which were not blinded. The user surveys suggest that users feel better after use. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called Chi (or Qi) and Prana. This has not been confirmed by independent studies. If you have or suspect you may have a medical condition, or if you are under the care of a healthcare practitioner, you should consult your practitioner before using MagHealy. Always use your MagHealy according to the Instructions for Use.

The magnetic field programs of the MagHealy device are not medical applications. They are not intended to cure, treat, mitigate, diagnose or prevent any disease or medical condition. The information on these pages is for reference and educational purposes only. It should not be treated as a substitute for professional medical advice, diagnosis or treatment. You should always seek such advice from a qualified medical professional. MagHealy

MagHealy complements the original and widely successful Healy. Together, they create a synergy, like an orchestra performing a frequency symphony.

Healy focuses on the Bioenergetic Field of the individual and is designed to promote internal wellbeing.

MagHealy addresses your space through a pulsating magnetic field aimed at harmonizing your surroundings.

The electrical force and the magnetic field are two complementary aspects like Yin and Yang.

For the Mind, Body and Environment

MagHealy's pulsation reaches up to 3 meters and extends even further through resonance. This allows you to enjoy magnetic field applications within your entire surroundings.
